February 2022

Dear Sponsors and Supporters,

We have taken a few pictures of our secondary school (Hebron) students learning, and studying for their national exams. **All Form Four students passed their exams, once again.** We give thanks to God for his abounding love and provision, and amazing staff and support. Here is a list of your SSP Form Four (Secondary school) students, and the Division in which they passed their test. We would like to explain that there are very few schools in all of Tanzania that have had every student pass, that have taken national exams. We are one of those schools!! A few explanations about why students do not have more in the I and II levels. One reason is that all of our students are not yet boarding full-time on campus. Being at school 24 hours a day allows students to concentrate more on their studies, than otherwise, helping out around their parent's property with chores, and not having electricity to study. Our goal is to have every secondary student boarding at Hebron. To accomplish this, we will need about 3 more dorms built at \$35,000 per dormitory. These buildings house 100 students a piece. Another reason is that the Tanzanian school system requires so much discipline in their work, and they are combating the constant hardships of secondary school being taught and accomplished in English. In primary school, they start learning two languages (Kiswahili and English), separate from their tribal language.

Divisions of CSEE National Exams

The exam divisions are defined as obtaining very good attitudes for work and character, passing civics, and obtaining points for different subjects at the principal level. (Principal level means one step above)

We have 65 students that have graduated from Form 4, however, not all of them are a part of the Sakila Sponsorship Program. The SSP program students have come all the way up from the beginnings of primary school, and they have sponsors from the United States. The rest of the students are from all over Tanzania, and they are paying for their own tuition, fees, and boarding.

2022 Food Drive

Our new school year started January 17, 2022. There are obstacles and challenges to overcome, but we ask that you would please continue to pray that our current needs will be met. Our greatest area of need is food (Rice, corn, and beans). Each year, we consume over 60 tons of corn at a price of \$244 per ton, 16 tons of beans at \$405 per ton, and 26 tons of rice at \$795 per ton. In 2021, we raised enough money to purchase food for 1000 students and 85 staff, for an entire year. Would you consider giving towards this need for the 2022 school year? Thank you so much for everything you do in making this monumental task a success.
~Godwin Selembo, Director~

Did you know?

While our students were on Christmas/Winter break in the United States, Tanzanian students were on their summer break.
